Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The newly added limitations in claims 25, 26, 35 and 36 contain subject matter which was not described in the specification, for example limitations in claim 25, "...to extract first information about....", "based on said first information, extracting second information from the user data store", "using said first and second information to identify...", "performing a management operation upon said specific file";

limitations in claim 26, "...based on said first information, extracting third information from said program data store; and using said third information along with said first and second information to identify at least one specific file...";
